

Amendments To The Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A spinning reel,
comprising:

a reel body having a connection portion for connecting said reel body to a fishing rod, and an engagement portion;

a handle rotatably mounted on the reel body;

a rotor having a hole fitted onto the engagement portion of the reel body to mask the engagement portion;

a spool rotatably mounted on the reel body for a fishing line wound thereon, and

a cover mounted on the reel body to mask a portion of the reel body, said cover having two arms each of which have a distal end ~~coupled~~ fixed to the engagement portion below the inner surface of the rotor.

2. (Currently Amended) The spinning reel as defined in claim 1, wherein the cover has an opening on each of the distal ends of the arms and the reel body has two thread holes on the engagement portion and below the inner

surface of the rotor, wherein two bolts are inserted into the openings of the arms and screwed into the thread holes of the engagement portion respectively.

3. (Currently Amended) The spinning reel as defined in claim 1, wherein the cover has a hooking portion on each of the distal ends of the arms and the reel body has two holes on the engagement portion and below the inner surface of the rotor, wherein the hooking portions are engaged with the holes of the engagement portion respectively.

4. (Original) The spinning reel as defined in claim 1, wherein the reel body has a lowland portion on which the cover is mounted.

5. (Original) The spinning reel as defined in claim 1, wherein the cover has openings thereon.

6. (Currently Amended) A spinning reel,
comprising:

a reel body having a connection portion for connecting said reel body to a fishing rod, an engagement portion, and two holes;

a handle rotatably mounted on the reel body;

a rotor having a hole fitted onto the engagement portion of the reel body to mask the engagement portion;

a spool rotatably mounted on the reel body for a fishing line wound thereon,—and

a cover mounted on the reel body to mask a lowland portion of the reel body, said cover having two arms each of which have a distal end forming a hooking portion to be engaged with the holes of the reel body respectively~~[[+]]~~, and wherein the surface of the cover is flush with the surface of the reel body.

Claim 7. (Canceled)

8. (Currently Amended) The spinning reel as defined in claim 6, wherein the cover has openings thereon.

9. (New) A spinning reel, comprising:

a reel body having a connection portion for connecting said reel body to a fishing rod, and an engagement portion;

a handle rotatably mounted on the reel body;

a rotor having a hole fitted onto the engagement portion of the reel body to mask the engagement portion;

a spool rotatably mounted on the reel body for a fishing line wound thereon, and

a cover mounted on the reel body to mask a portion of the reel body, said cover having two arms each of which have a distal end coupled to the engagement portion,

wherein the cover has an opening on each of the distal ends of the arms and the reel body has two thread holes on the engagement portion, wherein two bolts are inserted into the openings of the arms and screwed into the thread holes of the engagement portion respectively.

10. (New) The spinning reel as defined in claim 9, wherein the reel body has a lowland portion on which the cover is mounted.

11. (New) The spinning reel as defined in claim 10, wherein the surface of the cover is flush with the surface of the reel body.

12. (New) The spinning reel as defined in claim 11, wherein the cover has openings thereon.

13. (New) A spinning reel, comprising:
a reel body having a connection portion for connecting said reel body to a fishing rod, and an engagement portion;

a handle rotatably mounted on the reel body;

a rotor having a hole fitted onto the engagement portion of the reel body to mask the engagement portion;

a spool rotatably mounted on the reel body for a fishing line wound thereon, and

a cover mounted on the reel body to mask a portion of the reel body, said cover having two arms each of which have a distal end coupled to the engagement portion,

wherein the cover has a hooking portion on each of the distal ends of the arms and the reel body has two holes on the engagement portion, wherein the hooking portions are engaged with the holes of the engagement portion respectively.

14. (New) The spinning reel as defined in claim 12, wherein the reel body has a lowland portion on which the cover is mounted.

15. (New) The spinning reel as defined in claim 14, wherein the surface of the cover is flush with the surface of the reel body.

16. (New) The spinning reel as defined in claim 15, wherein the cover has openings thereon.
